

FARAZ MEHMOOD

+92 315-4236363 | Kohat, Pakistan | farazmehmood003@gmail.com | linkedin.com/in/faraz-mehmood-808046360

EDUCATION

B.S. Computer Science , Kohat University of Science & Technology Kohat	2020-2024
Higher Secondary School In Pre-Engineering Karwan Model College Kohat	2017-2019
Secondary School , Working Folks Grammar School Kohat-1	2015 2017
Full Stack Development (Ongoing) , Arfa Karim Technology Incubator, Peshawar	2026 Present

SKILLS

Languages	Dart, OOP, C++, TypeScript, JavaScript (ES2023), Java, C++, HTML5, CSS3
Frontend	Flutter, Provider, UI/UX Design, React 18, Next.js 14, Tailwind CSS, Responsive Design, State Management
Backend & DB	Firebase (Firestore, Authentication), Supabase (Storage), SQLite
Tools	VS Code, Android Studio, Git, GitHub, Postman
Soft Skills	Teamwork, Problem Solving, Time Management, Communication

PROJECTS

Tenant Link Application	2026
<i>Flutter - Firebase Firestore • Authentication • Supabase Storage</i>	
" Developed application using Firebase Firestore, Authentication, and Supabase for Storage.	
Bidding Application (User & Admin Panel)	2025
<i>Flutter - Firebase Firestore • Authentication • Supabase Storage • Provider</i>	
" Built using Flutter with Firebase Firestore, Authentication, Supabase Storage and Provider.	
To-Do Application	2025
<i>Firebase Firestore - Authentication • Supabase</i>	
" Developed with Firebase Firestore, Authentication, and Supabase integration.	
Weather Application	2025
<i>REST API (HTTP)</i>	
" Implemented real-time data using REST API integration (HTTP).	
Kovue Coffee (Final Year Project)	2024
<i>Flutter - Firebase</i>	
" Developed a mobile application as a final year project using Flutter and Firebase allowing users to browse nearby cafes, view menus, place orders, and track deliveries.	
" Included four user interfaces for Customer, Seller, Rider, and Admin to manage and monitor the system.	

EXPERIENCE

Flutter & Mobile Application Developer	July 2024 Present
<i>LogicCraft Technologies</i>	
" Developed and maintained high-performance mobile applications using Flutter and Dart.	
" Applied MVVM architecture to ensure a clean, scalable code structure, utilizing Provider to manage application state effectively.	
" Integrated Firebase and Supabase for secure, real-time data handling.	
" Implemented SQLite databases to provide robust offline functionality and local data persistence.	
" Collaborated on custom UI implementation and performance optimization to enhance the overall user experience.
